

Hospital Internal Staff Management

CLIENT SPOT LIGHT

Willis-Knighton Health System Achieved:

- Grew internal staffing pool by 25% without adding management staff.
- Simplified and automated staff credentialing process, ensuring state, industry and Joint Commission compliance.
- Projected savings of \$3,000,000 on agency spending for 2009.

Whether its unit based, facility, or system wide, many hospitals have some form of float pool or flexible, contingent based staff. ShiftWise IRP communicates available shifts to your staff and makes it easy for them to self-schedule.

ShiftWise IRP helps you verify, maintain and track employee profile documents and credentials with 100% accuracy.

With ShiftWise IRP behind you, the recruitment and management of an effective, internal workforce is a click a way.

- *Meet safe staffing requirements*
- *View available employees instantly*
- *Employee self-scheduling*
- *Track hours scheduled, worked and overtime*

ShiftWise IRP helps you reduce your reliance on external staffing agencies by maximizing the utilization of your internal employees. *Your staff will thank you when they start participating in the staffing process and meeting their own personal, professional and financial needs as healthcare professionals.*

“With ShiftWise IRP we have achieved a truly collaborative scheduling process with our internal flexible staff. Nurses are able to maintain an on-line schedule, confirm themselves into open shifts, and have visibility into all open orders that they qualify for. I would highly recommend ShiftWise IRP to any hospital looking to prioritize their own staff before going to outside agencies.”
